O N

Come live by the sea with incredible green areas. All in a place with more than 300 days of sunshine per year. Neighbouring the tranquil Azarujinha beach and many others, there is a wide range of terraces and leisure facilities available throughout the year, allowing you to fully enjoy a special lifestyle by the seaside.

MJCS+
investimentos SA

As a company that invests and develops Prime Property projects, MJCS Investimentos S.A. is a solid base to guarantee a delivery that always goes beyond and above all expectations. Further that, Portugal can be found in one of the top 10 countries for investment in real estate with on-growing revenues, being Estoril the uppermost location near the capital.

MIGUEL
ARRUDA
ARQUIT

ASSOC^{OS}

Miguel Arruda's is a renowned Portuguese architect with background in Sculpture, Design and Architecture. As Professor Emeritus at Faculty of Fine Arts of Lisbon also lectures in Design and Architecture conferences. The work from his studio has been awarded gold in several international competitions and published in various articles of the specialty around the world.

Deslink is a design laboratory led by Chief Designer Ana Lia Santos, known for combining decisive strategy with a hands-on design approach in various design fields. With over 20 years of experience collaborating with Miguel Arruda, Deslink's added value is the creation of a narrative for the brand, which positively involves all stakeholders.

Wonderful to live Perfect to invest

Find all the seven wonders in just one location. All within the best schools, restaurants, entertainment facilities, clubs and, of course, the sea as a view.

Come live in a unique place in the world, in a private luxury resort, where everything has a special glamour. An incredible coast line leads to Lisbon and on the other side to the amazing Estoril many wonders and the picturesque beaches of Cascais and Sintra hills. Located in São Pedro de Estoril on the seafront along Avenida Marginal, this place seamlessly combines luxury and convenience. Just 20 minutes from Lisbon and 5 minutes from Estoril, this neighborhood offers beachfront living, highly-rated schools, vibrant sports, and leisure facilities, all with the beautiful backdrop of the sea. Its proximity to the peaceful Azarujinha beach makes São Pedro de Estoril an ideal location for those seeking a coastal lifestyle. Safe and peaceful, this area has a well-maintained community infrastructure with growth prospects that ensure it as a stable investment.

Live

In Estoril, life is just incredible. Take for example the Cascais Marina, as the largest marina on this Portuguese Riviera. Located on the Bay of Cascais, the marina is host to numerous high profile sailing events, such as the America's Cup World Series, the World Match Racing Tour and the Mirpuri Foundation Sailing Trophy. Living here is worth two lives. Or more.

- Beachfront promenade to Estoril Center (15m walking)
- Luxury Brands, Delicatessen and Wine shops
- Luxury Wellness Center and Thermal SPA
- Cascais Marina
- Historical Gardens and Gardening Centers

Work

The best conditions for developing a business or career are gathered here. Estoril and its surroundings teem with activity such as creative hubs like DNA Cascais (Entrepreneurship and Commerce) or Nova School of Business and Economics, listed in the first places in the Financial Times Masters ranking. Your future awaits you.

- Beautiful Coast Road and Highway to Center of Lisbon (20 min)
- Lisbon Airport and Nearby Airfield - Aeródromo de Tires
- Business Center Taguspark - Technology hub
- International School of Excellence - St. Julian's
- Nova SBE (Carcavelos)

Play

Nobody can live and work without some playfulness. And this is the place where you can do it in a very high-end fashion. That's the case with Oitavos Dunes as the first European golf course designed by the renowned American architect Arthur Hills. Everytime you're going for a walk you can always say: Let's play?

- Golf, Padel & Tennis
- Manuel Possolo Hippodrome
- Cascais Cultural Center, Art Galleries, Museums (like Paula Rego)
- Theaters and Libraries
- Surf, Paddle Schools, Olympic Swimming Pools and Iron Man Circuit
- Casino do Estoril and night life

Careful concept for
an exeptional result

Miguel Arruda:

When describing the design process for the project, it's apparent that the site and the building exist in a symbiotic relationship, each informed by the other. Their subtle integration into the landscape defines the design of the seven family houses — their form and materials respond directly to their setting.

Designed with the city in mind, this concept includes green corridors that offer residents space and privacy. Additionally, these corridors extend the sea view to neighboring homes, aiming to elevate the living experience for both new and existing residents.

Barefoot luxury is the term used to define the arrangement of space within the building. The houses are designed to accommodate the family while retaining a humble, unpretentious character. We have embraced the concept of timeless design, experience and longevity of the building, structure, and details. The team has designed the houses to withstand the test of time. We like to envision our projects as buildings that won't need much renovation, change, or maintenance for many years.

In the interior design approach the focus remains on the surroundings, ensuring that connections outward are maintained and emphasized while moving through the home. Framed views become living artworks from within, watching the seasonal changes alter the surroundings over time while offering a sense of protection and enclosure. A layered palette of materials adds depth to the home. Combining dark metal details with modern tiles and natural elements such as stone and timber adds tactility. Balancing the interior richness with the surrounding landscape is vital to the home's identity, creating a neutral palette that combines Portuguese traditions with modern solutions. Products from reliable producers such as Marazzi, Grohe, and Ribadão have been chosen to ensure convenient everyday use and guaranteed quality.

Each family house includes

- Spacious living areas with wide windows and ample daylight
- A fully equipped modern kitchen with pantry
- Three or four suites (T3 or T4), walk in closets and guest bathroom
- A large rooftop terrace with top heated pool / swimming function
- Green areas and private garden
- Up to 4 parking spaces in the garage
- High-quality insulation, finish, and modern amenities

The property features a harmonious indoor-outdoor living experience. The spacious private garden blends seamlessly with the open plan of the living room and kitchen. The second floor offers a set of different peaceful bedroom space with stunning views. The roof terrace features a spacious area and a glass pool / SPA pool looking to the ocean.

On the western side, the home unfolds from the entry and opens up level by level. The view is framed as we follow the stairs. Each of these spaces is designed to connect to the outdoors, allowing light in and providing views while using landscaping to maintain a grounded feeling.

The building's design narrative captures the essence of a modern beach house, intentionally designed for simplicity and essential convenience to heighten the experience of living at the ocean's edge. With contemporary approach the architecture creates a private family retreat capable of balancing the brilliance of the ocean with the beauty of the coastal flora.

GROUND FLOOR

HALL	12.5
WC	4.0
SUITE	17.5
LIVING	65.0
KITCHEN	36.0
WC	2.5

AREA (m²) 145

The house is located on the east side of the project and is part of the Family Houses. The ground floor has south-facing windows to provide an unobstructed view and lead to the private garden. An open-plan kitchen connects to the living room, presenting a spacious gathering place.
